MEMBRA-THERM PLUS

A highly breathable membrane insert that creates a waterproof barrier between exterior layer of the glove and the insulating materials. It optimizes warmth and comfort by keeping the hands dry.

BREATHABLE SYSTEM

An air exchanging vent is placed on the back of the glove allowing moisture to escape. This improves the drying time of the glove and avoids hands getting wet.

REMOVABLE LINER

A removable lining where the back of the lining is built with a hot thick material whilst the palm is thinner to maintain sensitivity. The removable liner can be removed and washed.

GOGGLE & NOSE CLEANER

The mini goggle squeegees helps to easy-clean your lenses. The special velvet fabric on the thumb provides a soft place to wipe your runny nose.
