01 black

MEMBRA-THERM PLUS

A highly breathable membrane insert that creates a waterproof barrier between exterior layer of the glove and the insulating materials. It optimizes warmth and comfort by keeping the hands dry.

THINSULATE PLATINUM:

A unique blend of hydrophobic synthetic fibers for superior warmth and water resistance. Soft and available in various gram weights, it offers versatility and comfort for a range of apparel and accessories.

UPPER ZIPPER

The pocket has a dual purpose: the option to insert heat packs, or in case of excessive warmth or sweating, you can open the zipper to create ventilation.

ELASTIC CORD

This elastic cord seals from the outside environment when the snow is deep and the weather is foul. The cuff goes completely over your jacket sleeve and cinch's tight with the cord.
