HIGHLIGHTS: Special gate protection, Kirax Stimulator System **FEATURES:** Sublimation on back, Silicone grip, Dyneema stitching, Superfabric, Custom Fit, Tubes 3D protection technology, Graphene lining, Finger lining inside

CUSTOM FIT

This new unique system gives the opportunity to customize the glove/mitten to the anatomical shape of the hand.

WOOL LINING

Wool is an excellent insulator, resistant and breathable, it is naturally absorbent and does not capture odors. Thanks to these unique characteristics, it is one of the favorite materials for our linings.

THINSULATE™

The microfibrils of Thinsulate™ insulation are ten times smaller than the fibres of other synthetic insulations, which means they're much more efficient at trapping air and keeping in the warmth.

POLYGIENE®

With Polygiene® Stays Fresh Technology, enjoy fresh-all-day confidence. Polygiene makes your glove/mitten stay fresh!

skier: Federica Brignone

IMPACT PROTECTION

Knuckles and underside of cuff are comprised with a specific anti-shocking material for improved protection and are reinforced with abrasion resistant fabric for top durability.

PULLER

A wider puller inserted in underside of cuff helps to properly wear the glove/mitten

GRAPHENE LINING

Graphene offers perfect thermoregulation as it distributes the heat evenly. It is also totally waterproof, while being very breathable.

SUPERFABRIC TIP

Superfabric tipped mitten designed for lasting performance, the mitten's tip features Superfabric, renowned for its exceptional durability in extreme conditions and daily use.

SUPERFABRIC®

SuperFabric® is a material that's longer lasting, has higher durability, and is designed for everything from extreme applications to rugged daily usage.

SPECIFIC PALM CUT

The improved palm-shape facilitates gripping ski poles and offers better sensibility
