MEMBRA-THERM PLUS

A highly breathable membrane insert that creates a waterproof barrier between exterior layer of the glove and the insulating materials. It optimizes warmth and comfort by keeping the hands dry.

WATERPROOF FABRIC TREATMENT

The fabric is laminated with a process that permits to add a breathable waterproof membrane to the outer material, optimizing warmth and comfort while keeping the hands dry.

GOGGLE & NOSE CLEANER

The mini goggle squeegees help to easily clean your lenses. The special velvet fabric on the thumb provides a soft place to wipe your runny nose.

ELASTIC CORD

This elastic cord seals from the outside environment when the snow is deep and the weather is foul. The cuff goes completely over your jacket sleeve and cinches tight with the cord.
