WATERPROOF GOAT LEATHER

A soft waterproof leather, used mainly for ski gloves in areas which are exposed to high abrasion such as the palms or between the thumb and index finger.

THINSULATE™

The microfibrils of Thinsulate™ insulation are ten times smaller than the fibres of other synthetic insulations, which means they're much more efficient at trapping air and keeping in the warmth.

KNUCKLE PROTECTION

Armor on the fingers and knuckles to provide ski racers the hand protection that's a must-have on the race course.

SPECIFIC PALM CUT

The improved palm-shape facilitates gripping ski poles and offers better sensibility.
