MULTILAYER PRIMALOFT®

Soft insulation fabric. An insulation that is water repellent! Unlike down, it won't hold water so it even keeps you warm when it's wet! A warm and soft feeling that offers good breathability.

MERINO WOOL

Merino wool lining keeps hands warm and dry and its natural temperature regulating ability is ideal for high performance sports activities.

MEMBRA-THERM PLUS

A highly breathable membrane insert that creates a waterproof barrier between exterior layer of the glove and the insulating materials. It optimizes warmth and comfort by keeping the hands dry.

POWDER CUFF

This nylon cuff has a convenient adjustment for the closure around the wrist preventing snow from getting inside when riding powder.
